DATE MAILED: 11/17/2003

Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
 - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
 - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
 - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT/COMMENT/REASONS FOR ALLOWANCE

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Chase, esq., on November 12, 2003.

The application has been amended as follows:

Cancel ~~claims~~ 6 and 7.

Allowable Claims

2. Claims 1-5 are allowed over the prior art of record.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: Claims 1-5 are allowed due to a significant amendment to the independent claim in Paper No.7 that sets forth precise ranges of each of the ingredients of the claimed composition. The references to McGrady (U.S. 4,321,166), Mayhan (U.S. 5,534,177), Jones (U.S. 4,199,483) are obviated by the introduced ranges of concentrations, since McGrady and Mayhan, while providing generic teaching of a composition comprising different

Art Unit: 1746

permutations of instantly claimed ingredients, do not teach or suggest the ranges of concentrations for such ingredients. Jones teaches 20-75% of monomethanolamine that serves as a surfactant and 1-75% of water. However, even the maximum amount of monoethanolamine of Jones is far outside of the instantly claimed range. The same applies to Jnoue reference (U.S. 6,232,283) that discloses the presence of monoethanolamine within the range of 0.1-30%, while the instantly amended claim 1 call for 80-90%. Reference to Tori et al (U.S. 5,972,862) teaches all the components as instantly claimed, however, each of the claimed components is utilized in compositions in combinations different than those instantly claimed, and in order to create a claimed composition, a person skilled in the art would have picked and chosen components from different compositions with different ranges of concentrations. Tori does not provide a motivations or suggestion for such picking and choosing.

4. Several new references are cited along with the present communication.

Ancel et al (U.S.3,915,902) discloses a composition having the instantly claimed components, however, the range of concentrations for water soluble organic solvent is 3-30% (col.1, lines 50, 55, col.3, 4, Examples 1-3), which is far outside the instantly claimed range.

Sachdev et al (U.S. 5,888,308) discloses water based cleaning solutions, wherein surfactant and ethanolamine together comprise only 2-5% (col.7, lines 50-55).

Art Unit: 1746

Matsumoto et al (U.S.6,152,969) discloses a composition exemplified in Example 10 in col.19, that along with all claimed ingredients contains only 4.5% of triethanolamine (water soluble organic solvent);

Sizensky (U.S.4,617,251) discloses a stripping composition wherein the amount of amine (organic solvent) is within the claimed range, however, he does not suggest or motivates those skilled in the art to employ water in his composition.

EP 0479093 while discloses a composition comprising all components of the instantly claimed composition (abstract), the amount of organic amine solvent ranges between 1 and 5%.

Ulvild (U.S.3,887,497) discloses water based cleaning composition (abstract), having the claimed amount of water and surfactant, however his composition utilizes non-polar and water insoluble organic solvent.

Weaver et al (U.S. 6,486,115) discloses cleaning composition comprising a cyclic organic solvent, water and aromatic sulfonic acid (abstract). Organic solvents used by Weaver are listed in col.2, lines 49-64) are not water soluble and are outside the scope of the instant claims.

No other prior art that anticipates or suggests fairly the instant claims has been located as of the date of this Office Action. Therefore, claims 1-5 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1746

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
